Sufian Benallal Chakroun

Final-year Telematics Engineering Student
(+34) 628 740 184 sufian-benallal@hotmail.com
LinkedIn Portfolio
Alcorcón (Madrid), Spain

Profile

Final-year Telematics Engineering student with hands-on experience in telecommunications, networking, Linux systems, programming and technical support. International profile developed through Erasmus studies and work experience in Germany and the United Kingdom.

Technical Skills

Networking & Telecommunications

- TCP/IP, IPv4/IPv6, subnetting, static routing
- OSPF, RIPng, VoIP, QoS basics
- Asterisk, PJSIP/IAX2, Wireshark, FRRouting

Programming & Systems

- Python, C, MATLAB, Bash
- Linux, sockets, concurrent programming
- SQL/MariaDB, REST APIs

Tools & Platforms

- AWS EC2, API Gateway, Lambda
- Git, Overleaf/LaTeX, COMNET III

Selected Projects

VoIP and PBX Configuration with Asterisk

- Configured extensions, IVR, voicemail, music on hold and call queues.
- Worked with inter-PBX connectivity, databases and text-to-speech.

Network Programming in Python

- Developed client-server and hybrid P2P chat applications using non-blocking sockets and `select()`.

Web Server and Full-Stack Development

- Deployed a web server and developed a dynamic website using HTML, JavaScript, AJAX and PHP.
- Integrated database management with phpMyAdmin and MariaDB.
- Implemented REST API communication between client and server.

Routing and Network Services

- Configured static routing, OSPF, IPv6-over-IPv4 tunnels and RIPng in virtual machines.
- Analysed traffic and connectivity using Wireshark and Linux tools.

Cloud Deployment

- Deployed services on AWS EC2 and integrated a simple serverless microservice with API Gateway and Lambda.

Experience

Junior Telecommunications Engineer Intern 04/2026 – 07/2026
BOINSCA, Madrid, Spain

- Supported low-voltage electrical and ICT projects, combining technical and project management tasks.
- Assisted with tender analysis and preparation of technical and economic documentation.
- Collaborated in project follow-up and technical project support.

Part-Time Researcher 03/2026 – Present
University of Alcalá, Spain

- Research role focused on training a transformer-based neural network for applied engineering tasks.

Football Referee 02/2017 – Present
Royal Madrid Football Federation (RFFM), Madrid, Spain

- Decision-making under pressure, communication, teamwork and conflict management.

Telecommunications and IT Technician 03/2021 – 09/2021
Apple Spezialisten, Berlin, Germany

- Erasmus+ internship followed by continued work in hardware, software and IT support.

Education

BSc in Telematics Engineering 2021 – Present
University of Alcalá, Spain

BSc in Computer Science (Erasmus Exchange) 2025 – 02/2026
Oxford Brookes University, United Kingdom

Higher National Diploma in Telecommunications and IT Systems 2019 – 2021
IES Benjamín Rúa, Spain

Awards

EUGLOH Award – Best Student in Neural Network Training 07/2025
University of Szeged, Hungary

Languages

Spanish: Native
English: B2

Volunteering

Spanish Language Assistant 09/2025 – 12/2025
Cheney School, Oxford, United Kingdom
