Sufian Benallal Chakroun

Final-year Telematics Engineering Student
(+34) 628 740 184 sufian-benallal@hotmail.com
LinkedIn Europass Portfolio
Alcorcón (Madrid), Spain

Profile

Final-year Telematics Engineering student seeking a curricular internship in telecommunications, networking, systems, cybersecurity or software engineering. Hands-on academic experience in Linux environments, network configuration, Python/C programming, VoIP systems, cloud deployment and technical problem-solving. International background through Erasmus studies and work experience in Germany and the UK.

Technical Skills

Networking & Telecom
- TCP/IP, IPv4/IPv6, subnetting, static routing
- OSPF, RIPng, VoIP fundamentals, QoS basics
- Asterisk, PJSIP/IAX2, Wireshark, FRRouting

Programming & Systems
- Python, C, MATLAB, Bash
- Linux, socket programming, concurrent programming
- SQL/MariaDB, REST APIs

Tools & Platforms
- AWS EC2, API Gateway, Lambda
- Git, Overleaf/LaTeX, COMNET III

Selected Projects

VoIP and PBX Configuration with Asterisk
- Configured extensions, IVR menus, voicemail, music on hold and call queues in Linux.
- Worked with inter-PBX connectivity, database integration and text-to-speech features.

Network Programming in Python
- Developed client-server and hybrid P2P chat applications using non-blocking sockets and `select()`.
- Implemented messaging, file transfer and connection management features.

Routing and Network Services
- Configured static routing, OSPF with FRRouting, IPv6-over-IPv4 tunnels and RIPng in virtual machines.
- Analysed traffic and connectivity using Wireshark and Linux networking tools.

Cloud Deployment
- Deployed services on AWS EC2 and integrated a simple serverless microservice through API Gateway/Lambda.

Work Experience

Part-Time Researcher 03/2026 – Present
University of Alcalá, Spain
- Research position focused on training a neural network based on transformers for applied engineering and technical research tasks alongside final-year studies.

Football Referee 02/2017 – Present
Royal Madrid Football Federation (RFFM), Madrid, Spain
- Decision-making under pressure in fast-paced environments.
- Strong communication, teamwork and conflict-management skills.

Telecommunications and IT Technician 03/2021 – 09/2021
Apple Spezialisten, Berlin, Germany
- Completed an Erasmus+ internship and later continued working with the company.
- Performed Macintosh hardware and software repair and troubleshooting.
- Supported web server maintenance and technical IT tasks in an international environment.

Education

BSc in Telematics Engineering 2021 – Present
University of Alcalá, Spain

BSc in Computer Science (Erasmus Exchange) 2025 – 02/2026
Oxford Brookes University, UK
Selected modules: Machine Learning, Artificial Intelligence, Foundations of Security, Applied Software Engineering

HND in Telecommunications and IT Systems 2019 – 2021
IES Benjamín Rúa, Spain

Awards

EUGLOH Award – Best Student in Neural Network Training for Thoracic Disease Prediction 06/07/2025
University of Szeged, Hungary
- Awarded for achieving the best performance in training a neural network to predict diseases in the thoracic area from chest X-ray images, within an EUGLOH programme.

Languages

Spanish: Native
English: B2

Volunteering

Spanish Teaching Assistant 09/2025 – 12/2025
Cheney School, Oxford, UK
